

CONSENT FORM

ALL FORMS OF MEDIA AND COMMUNICATIONS

What is this consent form for?

Schools collect digital, photographic and multimedia images of students for a wide range of reasons, including to show parents/legal guardians activities undertaken by students and to promote the school. These images may be used on school websites, in newsletters, brochures, promotional materials and sometimes in the mass media or other publications.

Photographs and multimedia images may also be taken of students for record and archival purposes, such as annual class and individual photographs and similar multimedia productions. On occasion, the media may visit the school and may take photographs, video, or audio of school activities or newsworthy events.

This consent form gives permission for the student to take part in such activities and for Lihir International School to publish the images, video or audio recordings.

There are two types of consent possible:

- a) Lihir International School Education Community
- b) Newmont and Wider Community.

Lihir International School Education Community – this permits the taking of group and individual photographs for school records and for distribution to members of the school community via printed or digital means. Additionally, images and audio recordings may also be made of the student during school and school-related activities and these may be published in the school newsletter or other school authorised publications, including websites (with or without password protection) and closed groups on social media sites and apps. These images may also be displayed on the school premises.

If this type of consent is not provided, the student's image/details cannot appear in any school-related photographs, websites or publications (in so far as the school can exercise control).

Newmont and Wider Community – this permits the taking of group and individual photographs, and digital and audio images in the course of the student's school or school-related activities allowing these to be published in school or Newmont authorised or associated publications, productions, presentations, or media. This includes digital media such as the school or Newmont websites, social media sites and apps. Consent also authorises the use of the student's image and details (if appropriate) in mass media, under the school's supervision, and authorises supervised media access to the student in circumstances deemed appropriate by, and managed by, the school. Examples of this type of media include (though are not restricted to): visits made by VIPs and Newmont personal to the school; publicity for the school and its events; participation in musical or dramatic performances; or participation in community events such as ANZAC day or Independence Day commemorations and celebrations.

Where consent is not provided (for either or both of the types of consent above), the school requests that parents/legal guardians inform the student of their decision.

Who should sign the consent form? The student's parents/legal guardians should sign the form, along with the student themselves (if age appropriate). This ensures that the student is aware consent has been given, or withheld.

While Lihir International School will make all reasonable efforts to ensure that only appropriately authorised persons complete the consent form and sign the authorisation section, Lihir International School will not be responsible for circumstances in which it is misled as to the identity and authority of that person.

What happens to the consent form once it is filled out and signed? The consent form will be placed on the student's file or record and retained by the school. If requested, a copy of the form will be made available to the student and/or the student's parents/legal guardians.

Should you require any further information, or if you would like to discuss these options, please contact the school's Principal.
