

Glengarry Primary School 1:1 Program

Glengarry PS has successfully implemented a 1:1 Technology Program for Year 4 and 5 students in 2023. Other students who have participated in this program include children who are in a multiage class with Year 4 and 5 students.

As we begin preparing for the 2024 school year, we would like to invite parents of students in **Year 2 & 3** to an evening information session, where the following will be discussed:

- Overview of the program in 2023
- iPad guidelines
- Timeline for implementation in 2024
- Purchasing options with Winthrop

The information session will be taking place **Tuesday 5 September at 6:30pm** in the school Library. If you are interested in attending, please either scan the QR code, or register your attendance using the following link: <https://www.schoolinterviews.com.au/code/eg2ps>

If your child is entering Year 4 in 2024 our purchasing portal through Winthrop is now open, devices are offered at a discounted education price. It is recommended that students bring a 9th Gen iPad that runs iOS 16 as a minimum requirement, the iPad must have 64gb storage. The purchasing portal can be accessed via the following link: <https://sales.winaust.com.au/shop/glengarryps>

At this time, we would also request parents of students who will be in Year 3 in 2024, to please notify the school if you would be willing to purchase an iPad for your child if they were to be in a multi-aged class with Year 4 students. If your child is placed in a 3/4 class in 2024 you will be notified by November 30, this is to allow adequate time for families to purchase an iPad. Please note this will be the only circumstance where families will be notified a head of time. Please complete this online form by Monday 14 November: <https://forms.office.com/r/QQTNZy7fLN>

Kind Regards,

Hannah Murdock
Associate Principal

1:1 Technology Program

TOP 10 THINGS YOU NEED TO KNOW

1. Glengarry Primary School has a 1:1 Technology Program for students in Year 4 - Year 6, and for students who are in a 3/4 class, in 2024.
2. Parents will need to purchase an iPad, it must be 8th generation iPad or above, and it must run iOS 16 at a minimum. The iPad must have a minimum of 64gb of storage. Please note this may change depending on any Apple announcements.
3. It is highly recommended that parents purchase a keyboard for the iPad (not Bluetooth) and a stylus pen. These can be purchased through the Winthrop parent portal.
4. Families can purchase an iPad at an education price from Winthrop Australia. Please use the parent portal for purchasing using the following link: <https://sales.winaust.com.au/shop/glengarryps>
5. If your family already owns an iPad that meets the above specifications, your child may use that device at school, although the iPad will be reconfigured, i.e. restored to factory settings.
6. Your child's device will be reconfigured because an MDM (Mobile Device Management) will be installed onto the device at the school's cost. For more information about MDM's please use the following link: <https://www.jamf.com/education/#jamf-teacher>
7. Students without a device will have access to a shared iPad. This device will not be allowed to go home with students.
8. Guidelines for implementation have been devised by the ICT Steering Committee. These guidelines can be accessed via the school website, or a copy can be obtained from the office. Website link: <http://www.glengarry.wa.edu.au/ourschool.php?id=99>
9. Student iPads will be school managed, this means parents will not be able to add or takeaway apps on the device.
10. A parent information session will be held in the library on Tuesday 5 September at 6:30pm. If you wish to attend, please use the following link to RSVP: <https://www.schoolinterviews.com.au/code/eg2ps>
