

Celebrating all that we achieved together in 2023

Thanks to all the support we have had this year, we managed to combine fundraising and community building with initiatives to enhance our school environment and community

Created Ms Pauline's Garden with an ongoing focus on sustainability and playground enhancements (\$67k, which includes \$35k of grant funding)

Our Working Bee in July involved over 100 volunteers transforming the school grounds!!

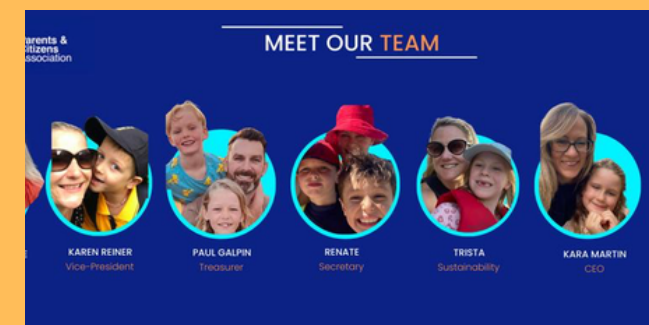

Connected school & local community through 11 events and strengthened our community partnerships e.g., Bunnings, Ray White Rozelle

Raised \$20k through events & other initiatives, \$24k through uniform stall, and supported school needs by approving over \$32K in funding requests

Enhanced the way we work e.g., new P&C specialist roles, focus on recognition of volunteers and community partners

THANK YOU TO ALL OUR WONDERFUL VOLUNTEERS!

Without whom this would not have been possible
