Summary of project benefits. <i>Please provide a short summary of the benefits the funding will bring to the school and our students.</i>	This funding would cover the cost of stationary and other teaching supplies for all classes. Examples of purchases include: resources for hands-on science lessons, whiteboard markers, glue sticks, cardboard sheets, coloured paper, dice, rulers, maths manipulatives etc.
Name and contact details. <i>You must be a parent or carer; Principal or teacher.</i>	Emma Archibald
What amount needs to be funded by the P&C this year? <i>This is the amount that will be allocated in the P&C budget if the project proceeds. Please also include any non-monetary support required (e.g. volunteers).</i>	Now: \$500 per class $500 \times 13 = \$6500$
Is ongoing funding required in future years? <i>Provide details of what ongoing funding is needed, please include an estimate of maintenance costs if applicable.</i>	Yes, we would like this to be recurring each year as it has in the past.
Will some of the cost be funded in other ways? <i>List any anticipated grants, donations etc.</i>	Departmental Budgets for stationary and supplies.
Is the funding request time critical? <i>Would the school miss out on a significant opportunity if this project is not funded immediately? Can the request be included within the school resource fees in the following year?</i>	Yes, it is already the beginning of term 3 and we have not restocked on supplies. We require resources to teach the new curriculum and to replenish those that are broken or not acquired yet.
Is there any further information you would like to add?	THANK YOU! Having access to the resources helps us to create engaging and hands-on lessons for our students.
